

Yu-Sheng Lee

Mathematics Division
National Center for Theoretical Sciences,
No.1, Sec.4, Roosevelt Rd., Taipei 106, Taiwan

Email: yushglee@ncts.ntu.edu.tw
Website: <https://yushglee.github.io>

EDUCATION

Columbia University, New York, NY, USA Ph.D. in Mathematics Thesis advisor: Eric Urban	Sep 2017 - May 2023
National Taiwan University, Taipei, Taiwan B.S. in Mathematics	Sep 2012 - May 2016

EMPLOYMENT

University of Michigan, Ann Arbor, MI, USA Assistant Professor (non-tenure track)	Aug 2023 - May 2026
NCTS Mathematics Division, Taipei, Taiwan Postdoc Fellows	Aug 2026 - Present

RESEARCH INTERESTS

Number Theory, Arithmetic of L-functions, Galois representations, and automorphic forms.

PREPRINTS AND PUBLICATION

- *Anticyclotomic Euler Systems for CM fields*, Submitted. ([arXiv](#))
- *Hida family of theta lift from $U(1)$ to definite $U(2)$* , Submitted. ([arXiv](#))
- *Derived p -adic heights and the leading coefficient of the Bertolini–Darmon–Prasanna p -adic L -function*, with Francesc Castella, Chi-Yun Hsu, Debanjana Kundu, and Zheng Liu, Trans. Amer. Math. Soc. Ser. B 12 (2025), 748-788. ([journal](#), [arXiv](#))

TEACHING

University of Michigan

- Calculus II(2 sections), Winter 2025
- Applied Honor Calculus II(2 sections), Fall 2025
- Applied Modern Algebra, Winter 2024
- Calculus II(2 sections), Fall 2024
- Calculus II(2 sections), Winter 2023
- Calculus II(2 sections), Fall 2023

Columbia University

- Calculus II, Fall 2021
- Linear Algebra, Summer 2020

OTHER ACADEMIC SERVICE

- Columbia Directed Reading Program, Spring 2022

INVITED TALKS

- *Congruences Between Modular Forms and Nontrivial Cohomology Classes*
Taipei Postdoc Seminar, Sep 2026
- *Fourier coefficients of theta series and congruences*
NCTS Postdoc Symposium, Sep 2026
- *CM congruences and anticyclotomic Euler systems*
University of Oregon, Oct 2025
- *CM congruences and anticyclotomic Euler systems*
UniDistance Suisse Mathematics Colloquium, Oct 2025
- *Fourier coefficients of theta functions*
NCTS Number Theory Day, Jul 2025
- *Anticyclotomic Euler systems for CM fields*
University of Michigan GLNT seminar, Apr 2025
- *Congruences of automorphic forms and Euler systems*
Arithmetic aspects of automorphic forms and automorphic representations, RIMS, Jan 2025
- *Families of CM forms*
University of Michigan RTG Number Theory seminar, Mar 2024
- *Arithmetic of theta liftings*
UBC Number Theory Seminar, Oct 2022
- *Ribet's converse to the Herbrand theorem*
Columbia Number Theory Seminar, Oct 2022

LANGUAGES

Mandarin(Native), English(Fluent), Japanese(Intermediate)
